# Some information on this strategic diagnostic.....

- Identifying Interferences via Insights Most business leaders have an idea of what their challenges are. The Agility Insights Diagnostic tools take leaders from ideas to a point where they have a 'solid picture' of the situation after which an apt action plan can be defined and implemented.
- **Impact via Insights** These insights allow leaders like yourself, to build 'managerial capabilities' that allow organisations to handle VUCA times (volatility, uncertainty, complexity and ambiguity) which we term as 'Ability to Act'.
- **Components of the free assessment** it has 22 questions that focuses on 3 areas (below) that results in a 'Management score'.
  - Speed how we engage our people to achieve maximum 'flow'?
  - Agility how we coordinate work to maximise outcomes despite VUCA realities?
  - Resilience how do we energise & renew ourselves to withstand VUCA challenges?

## Some information on this free strategic assessment.....

- **Report development** I will share a mini report with you within 48 hours of the assessment's completion, after which we can have a meeting/video conference to discuss the 'full' report at your convenience.
  - The resultant report comes with graphics that tell a compelling story which the CEO/COO/GM can use as a stepping stone for change.
  - Where the CEO/COO/GM identifies real value at this stage, he can progress further to an appropriate 'fee based' package.
- Time involved the assessment takes only 15 minutes.
